SUMMARY

Aspiring Software Developer and Engineering fresher specializing in Data Science with strong foundations in DSA, backend development, and system design. Skilled in C, C++, Java, and Python, and eager to apply strong analytical thinking, adaptability, and time management skills in a Software Developer role to build scalable and efficient applications

EDUCATION

B.Tech in Electronics and Communication Engineering	2024 – 2028
Vignan's Institute of Information Technology	CGPA: 9.46 / 10
Intermediate (Class XII)	2022 – 2024
Sri Chaitanya Junior College	Percentage: 98.7%
SSC (Class X)	2021 – 2022
Siddhardha English Medium School	Marks:558 / 600

PROJECTS

Personal Expense Tracker

- Developed an application to record, categorize and analyze daily expenses.
- Implemented data visualization for spending insights and monthly summaries.
- Used Python and file handling for efficient data storage and retrieval.
- Improved financial tracking and budgeting through automated reports.

Companion Walk

- Designed a smart companion system focused on user safety and real-time location tracking.
- Integrated navigation and emergency alert features.
- Worked on user-friendly interface and efficient data handling.
- Emphasized reliability and real-time communication.

EXPERIENCE

Intern – Future Interns

March 2026

- Selected for a data analysis internship role.
- Will work on data cleaning, visualization and extracting insights using Python and SQL.

TECHNICAL SKILLS

Languages: C, C++, Python, Java

Core Subjects: Data Structures, DBMS, CN, OS, OOPS

Libraries: Numpy, Pandas, SQL, Matplotlib

ACHIVEMENTS

- Consistently secured **SGPA above 9.0** across multiple semesters.
- Solved **130+ problems on LeetCode**, demonstrating strong problem-solving and DSA skills.
- Secured **Top 7% percentile in JEE Mains** among nationwide candidates.

SOFT SKILLS

- Problem Solving
- Quick Learner
- Team Collaboration
- Time Management
- Strong Communication
